## **FLORE AGAINST MOLD**

### **TECHNICAL SHEET**

**TL 528/2009**

Date of issue: 1.6.2009

Date of revision: 27.6.2017

#### **Chemical characteristics of the product**

Water solution of sodium hypochlorite and sodium hydroxide.

#### **Use**

**FLORE AGAINST MOLD** Is a fungicidal, cleansing and bleaching agent for areas and surfaces. It is also used for the liquidation of molds on different areas.

#### **Product features**

**FLORE AGAINST MOLD** is yellowish to greenish, slightly opalescent liquid. It is miscible with cold water, resulting solutions are clear to slightly opalescent.

#### **Product processing**

The recommended dosage is dependent on the appropriate application of the product.

#### **Liquidation of molds on walls, wood, tiles, around pools and baths, etc.**

It is used undiluted. The attacked sites are sprayed from 5 to 15 cm and after 30 minutes the treated area can be washed with water or the product is let to dry off. The mold is not removed before spraying to avoid dispersal of dangerous spores. In severe attacks, the procedure is repeated several times. It simultaneously disinfects, bleaches, cleans and frees from the bacteria the treated areas.

**Do not use on metals! Immediately rinse metal objects with water! Do not use on non-ferrous and polyamide objects. Objects with unstable colors may discolour.**

#### **Packaging, storage**

**FLORE AGAINST MOLD** Is delivered in PE cans of 25 liter content or in PE canisters of 5 and 10 liters content, in PE bottles of 0.5 and 1 liter content, or in other pre-agreed packages. Store in closed containers in places protected from direct weather conditions. Do not store in the sun or near heat sources. The recommended storage temperature is +5 to +25 ° C. Short-term exposure to lower temperatures, for example during transport, does not affect the application characteristics of the product.

#### **Transport**

**FLORE AGAINST MOLD** is transported by covered means of transport in accordance with ADR / RID regulations.

#### **Shelf life**

If the product is transported and stored in accordance with the above conditions its shelf life is 12 months from the date of production.

#### **Note**

Data about the product characteristics and its processing were obtained by laboratory measurements and application tests. This technical sheet can only give a legal advice without obligation, the processing of the product must be adapted to the specific conditions.

**FLORE AGAINST MOLD**  
**CZ**

**Liquid biocidal product. It is used for the disposal of molds on walls, wood, tiles, around swimming pools, baths, etc. The treated areas are simultaneously disinfected, bleached, cleaned and freed of bacteria.**

Active substance: Sodium hypochlorite 4.7 g / 100 g of product

**Instructions for use**

It is used undiluted. The attacked sites are sprayed from 10 to 20 cm and after 30 minutes the treated area can be washed with water or the product is let to dry off. The mold is not removed before spraying to avoid dispersal of dangerous spores. In severe attacks, the procedure is repeated several times.

**Do not use on metal and enamel surfaces, non-ferrous metals and polyamide, on fabric, leather, wood and rubber. Objects with unstable colors may discolour.**

Contains: Sodium hypochlorite, solution, sodium hydroxide

Irritating to the skin. Causes severe eye damage. Very toxic to water organisms. Keep out of the reach of children. Do not breathe fumes / vapors / aerosols. Use only outdoors or in well-ventilated areas.

Avoid release to the environment. Wear protective gloves / protective clothing / safety goggles / face shield. IF SWALLOWED: if you are not feeling well, call the TOXICOLOGICAL INFORMATION CENTER / a doctor. IF ON SKIN: Wash with plenty of water and soap. IF IN EYES: Rinse cautiously with water for several minutes. Remove the contact lenses if they are fitted and if they can be easily removed.

Continue rinsing. In case of skin irritation: Seek medical help / treatment. Releases toxic gas by contact with acids.

**Attention! Do not use together with other products. It can release dangerous gases (chlorine) Use biocides in a safe way. Always read the label and product information before use.**
